Hi,

Status update is as per summary sent on Thursday, 28.12.

Toggle entries for the month of December are now annotated and flattened.

I saw your reply Juergen (<https://github.com/geckoprojects-org/org.gecko.emf.utils/pull/36#issuecomment-1874249302>) to my detailed summary (<https://github.com/geckoprojects-org/org.gecko.emf.utils/pull/36#issuecomment-1870682157>) and I would like to ask that you provide detailed enough examples to make sure I understand what you require; I outlined my understanding in <https://github.com/geckoprojects-org/org.gecko.emf.utils/pull/36#issuecomment-1870682157> but your reply does not contain sufficient information to clarify what exactly is needed in addition to what is already done - I need specific examples.

Regards,

Hi,

Attached please find PDF with status update as of 28.12.2023. It contains updates regarding the following projects:

- MDO – Integration of latest 'Gecko EMF Utilities' version
- Gecko EMF Exporters (CSV, XLSX, ODS) enhancements
- Traffic cameras project
- AVATAR

Mark's input is specifically needed for the AVATAR project.

Regards,
