Hi Michael,

Nice to hear from you. It seems that you are doing great. I have been in New York and China for all these years. No problem with reference.

Best of luck!

Michael

Dear Michael,

We worked together in the years 1998 - 1999 at IngressNet in New York City. This was my first IT job, and I learned a lot thanks you giving me this opportunity - I worked as technical support, webmaster, and helped Yarema with administration and installation tasks.

I've gained a lot of experience working on many diverse projects throughout these 15+ years - my CV is available at LinkedIn
<http://uk.linkedin.com/in/mhsiemaszko>

I've relocated to London, UK recently, after 10+ years of living in Poland. I am in the process of seeking a new position as a software solution architect.

I wanted to ask whether you'd feel comfortable giving me a reference - either written (I will provide a template) or via LinkedIn or to be used as a reference on my behalf (I would mention your name and contact details to employers asking for references).

Thank you for your time.

Kind regards,
