Hi Michael,

I am sorry for the delay in response, but unfortunately, completely unplanned, I had almost a month off the schedule and I'm just catching up.

Thank you very much for being able to take few minutes of your time to confirm this IngressNet period @ "Gun.io" - you should have received an email from them like one attached with link; if you have not gotten such email, please let me know and I'll have it re-sent.

To answer your question: since 2003 I've been working with US companies remotely - most recently had a 2,5 year B2B contract (2015-2017) with California company; I've lived in Europe / EU since 2003. I do have a 10-year US visa however, so I can travel when necessary (on-site meetings, etc.). If I can be of help with anything, attached is my functional CV (also available via my company website <https://ideas.into.software/about/>).

Thank you again for your help.

Kind regards,

Hi Michał, good to hear from you. No problem with the reference.

Are you working in New York or elsewhere?

Hi Michael,

Please accept my apologies for bothering you with this nonsense again, but as it stands, you are my very first employer, i.e. I started working in IT thanks to you :)

I provided your contact details @ GUN.io (<https://www.gun.io/>) where they need to verify these things and they'll be sending an email to you and asking you to confirm this period (i.e. 02/1998 - 01/1999). Thank you very much in advance.

Hopefully you're doing great. If I can be of any help in return, please let me know.

Kind regards,
